INTERNATIONAL SEMINAR ON AYURVED & CARDIAC DISORDERS

March 12th & 13th, 2010

Venue: Padmashree Dr.D.Y.Patil H.M.C.T Auditorium, Sector: 07,
Nerul -East, Navi Mumbai., Maharashtra,
India. Pincode: 400 706

Dr.D.Y.Patil College of Ayurved & Hospital & Research Institute, Nerul, Navi Mumbai

Founder Chancellor
Padmashree Dr.D.Y.Patil

As per 30th World Health Assembly resolved in May 1977, "HEALTH FOR ALL BY 2000" is the social goal for all. Keeping this in mind, the D.Y.Patil Groups forays into healthcare and education extends back to over two decades and today stands as benchmark that other aspires to emulate.

Dr .D.Y.Patil College of Ayurved & Research Institute is established in the year 2004.This Institute is amongst one of the few institutes in India where medium of language is English. Institute is imparting Ayurvedic knowledge through Audio-visual aids like OHP, Computers, Laptops, LCD projectors etc. In such a short span, this institute has grown into self contained institute with the aid of latest instruments and equipments in diagnosis and treatment. This well equipped 300 bedded hospital represents eight special branches of Ayurved.

We are proud of being first 'Paper-less' Hospital with installation of sophisticated software-'Dhanvantari' that maintains patient's data.

The increased incidence of heart diseases in India is the biggest threat of all, which needs urgent preventive measure. Heart disease is the number one killer in most developed & developing countries. About forty years ago, heart disease was No.7 on the list of killer. It has moved very rapidly to its present third position.

On the basis of many epidemiological surveys, Diabetes, Hypertension, Obesity, Sedentary lifestyle & Stress have been identified as the causes of cardiac disorders. Though different modalities are available in modern sciences, Ayurved has enormous treasure of lifestyle, treatment, diet planning, medicines, panchkarma, yoga etc. for cardiac disorders.

We make sure that this seminar will enlighten your knowledge & will help the society to bypass the cardiac disorder with the help of Ayurved.

I request you to keep yourself free on 12th & 13th March, 2010 so that your valuable presence will make the event complete.

Please register as early as possible as probably there may not be spot registration if we reach the accommodative capacity.

Looking forward for your blessings & participation.
